

INTERNATIONAL
WOMEN'S DAY

MARCH 8, 2016

Call on all
to be
HEARD!

Call on all!

IN QUÉBEC, WOMEN ARE STANDING UP AND SAYING NO TO AUSTERITY

THAT THREATENS

- **Access to programs and public services, such as the public daycare network, which improves their well-being;**
- **The quality of programs and public services;**
- **Their job (as they make up 80% of public sector employees);**
- **Their working conditions.**

**Women are therefore hit hardest
by the Couillard Government's
austerity measures.**

**We say NO
TO ENVIRONMENTAL
MEASURES** jeopardizing our
gains and achievements, as well as
our working and living conditions.

**We say NO
TO THE IMPOVERISHMENT
TO THE GROWING GAP**
of families.
between the rich and
the poor, the latter being,
for the most part, women.

We are STANDING UP

TO defend our rights.

TO encourage active participation
in Québec society.

TO demand concrete measures
aimed at striking an appropriate
balance between the various
aspects of our lives: family,
work, study.

We CALL FOR

All gender equality programs
be systematically maintained.

We DEMAND

Adequate funding

of specific measures:

TO improve our access to
the workplace;

TO end all discrimination
against us.

The adoption of the framework act
on family-work-study balance that
we've been calling for.

Call on all!

Why March 8?

International Women's Day –
March 8 – is a time to celebrate
our struggles and to organize
activities to let our voices and
demands be heard.

For over 40 years in Québec,
March 8 has been an opportunity
to celebrate the social contribu-
tion of women in making society
more cohesive, equal and fair.

COME OUT and participate
in large numbers to March 8
activities in your own region.
For more information, contact
your local central council.
