STILL STANDING UP TO AUSTERITY

Why? Because austerity hurts us all.

For months, the Coalition avenir Québec (CAQ) has been claiming the government's coffers are empty and it must tighten its belt. Their solution? Slashing public services and gutting social programs. Everyone pays the price—except the wealthy few pushing these measures.

Yet not so long ago, this same government cut income taxes and handed out cheques for hundreds of dollars instead of investing in public services and social programs that benefit everyone.

Clearly, the interests of workers and the general public are not the government's priority. Austerity is eroding the social safety net that protects the most vulnerable and ensures a genuine redistribution of the wealth. It is undermining the right to work, education, health, housing, food and transportation.

**TODAY MORE THAN EVER,
WE ARE STANDING UP TO AUSTERITY
AND DEMANDING A FAIRER, MORE
COMPASSIONATE SOCIETY.**
